Grey/black water may be taken to the closest townsite and disposed at an appropriate location. Such waste should not be dumped into river water catchments or toilets provided in rest areas due to environmental issues.

Roadside rest areas in Western Australia

Driving while fatigued is a major cause of more than 30% of all road crashes.

When taking a long trip, it is vital to plan ahead to ensure that you arrive safely. Most importantly, do not drive while fatigued.

This guide lists the rest areas and amenities provided by Main Roads which enable you to take a short break from driving and help reduce fatigue.

Use this guide to help plan your trips and keep in mind the following tips:

- Allow enough time for breaks in your journey. You should take a 10-minute break every two hours and a longer break every four hours;
- Get plenty of sleep before you set off and start early in the day when you are well rested;
- Avoid driving when you would normally be asleep, such as late at night or early hours of the morning;
- Avoid consumption of alcohol before or during the trip; and
- Stop immediately if you feel tired. Watch out for symptoms such as boredom, restlessness, aches and pains, sore eyes or drowsiness.

Remember, rest areas are not intended for camping. Overnight stays are **only** permitted where you see the '24' symbol.

If you have any suggestions for improving this guide you may contact Main Roads via our 24-hour Customer Contact Centre on 138 138. You may also phone or drop into any of Main Roads' regional offices during business hours. The regional offices are shown on the maps and their contact details are listed on the corresponding pages.

Have a safe journey!

Routes at a glance...
