While you're away

Have your alarm monitored

For additional peace of mind you can choose to have your alarm fully monitored and benefit from a monitored system which acts as a guardian while you're at home or away. All monitored alarm systems are linked to a Western Australian based monitoring station, which is staffed by professional security experts 24 hours a day, 365 days of the year, providing you with immediate action if your alarm is activated.

Prefer to monitor your home or business yourself?

RAC Security offers the latest in CCTV (Closed Circuit Television) security. With our easy to use CCTV systems, you'll be able to keep an eye on your property over the internet. With 24 hour surveillance and recording, easy connection to a PC and professional installation, CCTV can offer reassurance when securing your property and possessions.

Think about windows and doors

Sentry mesh security screens and doors

Our stainless steel mesh is super strong whilst being so fine, you'll hardly notice its there and yet it still offers maximum airflow.

FEATURES

- An interlocking aluminium frame providing additional strength with no unsightly rivets
- Powder coating ensures superior corrosion resistance for a look that's easy to maintain and lasts
- Frames come in a choice of 130 colours to match the look of your home

Sentry grille security screens and doors

Traditional grille styling sends a clear deterrent to would-be intruders and is one of the most cost effective screens available.

FEATURES

- The combination of aluminium grille and woven mesh offer security and protection from mosquitoes
- Using a 60 tonne hydraulic press, our unique assembly ensures superior strength
- Frame and grille can be colour matched to your home from a choice of 130 colours

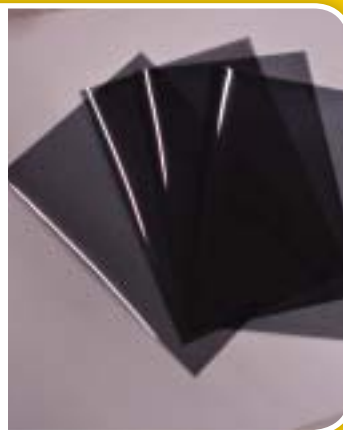

Sentry security film

Adding strength to your windows for a minimal investment, security film comes in a wide range of protection including anti-graffiti, safety, security and high security which all block UV rays to reduce heat and glare.

FEATURES

- Blocks 99% of UV rays to reduce sun damage to your furniture and carpets
- Reduces heat and energy bills
- Guaranteed never to peel, bubble or discolour

Sentry roller shutters

Sentry roller shutters combine weather protection with home security. These motorised shutters can be opened or closed with the flick of a switch.

FEATURES

- Reduces energy bills
- Protects interior and furnishings against the summer heat and UV rays
- Decreases outside noise and protects your privacy

Finishing touches

Sentry locks

Make sure you get the right locks for your doors and windows. We continually update our range, ensuring you can choose the best locks for maximum security.

FEATURES

- Ensure correct lock installation using our locksmith service
- Our fully licensed locksmiths can repair most locks
- We also offer a 24 hour emergency repair service

Property marking

DataDot is an advanced way of marking your property. Once an item has been coated with a DataDot it can easily be identified by police.

FEATURES

- Invisible marking mechanism
- Quick and easy to apply - simply spray
- Can be applied to almost any valuable items (electrical goods, computers, jewellery etc)

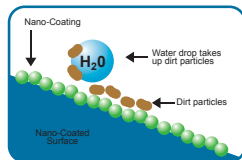

Sentry Nano-Guard

Sentry Nano-Guard uses Nanotechnology, a treatment process that once applied to glass helps keep it clearer for longer and makes it easier to clean.

Features

- Perfect for: glass windows and doors, pool balustrades and glass balconies, vehicle windows, skylights and solar panels, shower screens, ceramic baths, basins, wall tiles and more
- Simply spray with a hose for sparkly clear views
- Resistant to friction and temperature changes and cannot be removed by water, household cleaning agents or high pressure equipment

Securing the things you love couldn't be easier.
