

# **BusinessWise Roadside Assistance entitlements**

**BusinessWise**  
For the better

## Who is eligible for service?

To be eligible for Roadside Assistance the Vehicle must be a Nominated Vehicle that is covered by your Roadside Assistance Cover.

### When do your benefits become available?

Roadside Assistance benefits (including Breakdown Towing and Extended Benefits) are subject to a Waiting Period.

When joining in a Breakdown situation upon payment of the Join on Road and Fees, RAC will provide Roadside Assistance (excluding Extended Benefits) and Car Hire (post a Tow).

If you upgrade your Roadside Assistance Cover during a Breakdown, RAC will provide Roadside Assistance (excluding Extended Benefits) and Car Hire (post a Tow).

## How Roadside Assistance can help?

In the event of a Breakdown where the Vehicle cannot be driven, RAC will assess and provide the appropriate service(s) detailed below within your cover limits.

The below services are provided 24 hours a day, seven days a week in the Metropolitan Area and in Regional Centres, and as soon as reasonably possible in Country Areas. RAC will provide you with an estimated timeframe to attend a Breakdown in Country Areas at the time of booking where possible.

Within the Metropolitan Area, there are no limits to the distance RAC will travel to provide Roadside Assistance. Outside this area, an RAC Contractor will provide service as soon as possible by travelling the most direct/feasible route from their base to your Breakdown location and return to the below maximum limits:

| Roadside Assistance Distance Limits |                             |                        |
|-------------------------------------|-----------------------------|------------------------|
| Cover                               | Metro Area (incl. Mandurah) | Country Area           |
| Assist                              | Unlimited                   | Up to 80km round trip  |
| Absolute                            | Unlimited                   | Up to 200km round trip |

If an RAC Contractor is required to travel Excess Kilometres (beyond the above distance limits for your Roadside Assistance Cover), you will be invoiced an additional fee, which will be quoted when the Job is being dispatched.

### Flat Battery

In event of a flat battery, we will utilise our testing equipment to diagnose the battery condition. RAC will then either provide a jump-start or deliver and install a new RAC battery, at your cost. Battery availability may be limited in Country Areas.

### Out of Fuel

If your Vehicle is immobile due to lack of fuel, RAC will provide you with up to 5 litres of regular unleaded or diesel fuel, at your cost, to enable your Vehicle to be driven to a fuel outlet. In the event that fuel cannot be supplied (including LPG Vehicles) a Tow to the nearest fuel outlet will be supplied, within your Towing Limits, and any fuel purchased will be at your cost.

## Wheel Change

RAC will assist you to replace a flat or damaged tyre with a suitable roadworthy spare wheel provided by you. If your Vehicle is equipped with manufacturer's gel sealant RAC will provide assistance utilising the supplied repair kit. Wheel changing is limited to Vehicles less than 4 tonnes (as loaded).

If suitable tyres are not available, or where the surrounding conditions make it unsafe to fit a tyre at the Breakdown location, the Vehicle will be Towed in accordance with your Towing Limits. Any special equipment or specialised Service Provider that may be required will be at your cost.

Roadside Assistance will not be provided if tyre impact damage has occurred as a result of an Accident and/or malicious damage due to the potential for mechanical damage to the Vehicle.

### Lockout/Locksmith

If RAC is unable to unlock your Vehicle or if the keys are lost, stolen, or damaged or the driver's door, fuel cap or ignition lock is damaged preventing the Vehicle from being mobilised or secured. RAC will provide one of the following services up to your Annual Entitlement Limit (subject to satisfactory proof of ownership shown):-

- > Organise a locksmith to attend (see coverage limit below), or
- > Tow the Vehicle within Towing Limits to a motor dealer or other location (see Towing Limits table)

#### Locksmith service (limit per year)

|          |                          |
|----------|--------------------------|
| Assist   | At Customer's cost       |
| Absolute | Up to the value of \$165 |

Every attempt will be made to provide locksmith services as required, however they are dependent on availability. Attempting to gain entry to your Vehicle by any other means other than a key or keyless transponder can result in damage to your Vehicle. RAC and all RAC Contractors will not accept liability for any damage caused as a result of gaining entry or attempting to gain entry to your Vehicle.

### Minor Mechanical Repairs

RAC will provide limited mechanical repairs to mobilise your Vehicle utilising the spare parts and supplies within an RAC Patrol vehicle. The cost of all parts and supplies is payable by you at the time of the service.

RAC prides itself on providing quality products and services. To achieve this we only supply and fit compatible parts that meet or exceed regulatory requirements, Australian Standards and original manufacturer's specifications, this includes a combination of either genuine (OEM specific) or aftermarket (generic) parts depending on the application.

If your Caravan or Trailer is disabled when being towed by your Vehicle, Towing will be provided within Towing Limits as outlined in the Towing Limits table.
